

SANTA CRUZ COUNTY Medication Assisted Treatment (MAT) RESOURCES

For anyone interested in starting MAT or finding MAT services, there are providers in North and South County. If you have MediCal and are assigned to a provider, you can most likely go to your own clinic for ongoing buprenorphine. If you have private insurance (PAMF, Dignity, Kaiser) you can get care.

Note: Kaiser will not continue buprenorphine without an additional series of appointments and evaluations.

If you are uninsured in North County (red listings below) go to **Santa Cruz Community Health**,

If you are uninsured in South County (blue listings below) go to **Salud Para La Gente**.
